Steps to Push the Code to Github using GitBash:-

1. git status

2. git init

3. git config --global user.name "xxx"

4. git config –global user.email " xxxx@gmail.com"

5. git add .

6. git commit -m "initial version"

7. git remote add origin

https://github.com/chinmayshukla?tab=repositories
8. git branch -M main

9. git push -u origin main

GitHub Repository to find the project-

https://github.com/tejusm29/FSD/tree/main
